

V3-09-Vessel-Maritime-Resilience

V3 Super Compendium — Carrington Storm Motors / Safe Pod Engineering Company

Author: Brodsky-Orchestration | **V3 Revision Date:** June 2026 **Classification:** CSM Fabrication and Research Master Document **Scope:** Consolidated V3 from 8 documents

Document 1 of V3-09-Vessel-Maritime-Resilience — Table of Contents and Brief Descriptions

This V3 super compendium consolidates the complete V1.0, V2.0, and v1to2 versioning documents from 8 CSM documents into a single authoritative reference.

Brief Description of All Included Documents

- **CSMVessel0000000001 Cruise Ship Carrington Event Resilience Proposal** — CSM fabrication/research document
 - **CSMVessel0000000002 Cruise Ship Cabin Resilience Research** — CSM fabrication/research document
 - **CSMVessel0000000003 Vessel Paints, Fabrics Resilience Strategy** — CSM fabrication/research document
 - **CSMVessel0000000004 Hull Resilience Induction & Vibration Mitigation** — CSM fabrication/research document
 - **CSMVessel0000000005 Cruise Ship Resilience Entertainment Systems** — CSM fabrication/research document
 - **CSMVessel0000000005 Cruise Ship Resilience Safety Systems** — CSM fabrication/research document
 - **CSMVessel0000000007 Cruise Ship Resilience Propulsion Navigation** — CSM fabrication/research document
 - **CSMVessel0000000008 Rebuilding Ships for Carrington Events** — CSM fabrication/research document
-

Ultra-Detailed Fabrication and Research Content

All referenced documents have been processed through V2.0 with 2025-2026 scientific updates. See individual v1to2 versioning documents for precise parameter-level change logs.

Key engineering standards updated: - Solar Cycle 25 SSN ~137 peak — elevated Carrington probability - MXene Ti3C2Tx EMI shielding: SE = 92 dB (2025 confirmed) - KNbO3-BaTiO3 lead-free piezo (Tc = 310degC) replacing PZT throughout - Flash Sintering: 1800degC ZrB2-SiC (-300degC energy savings) - ACI 440.11-25, AASHTO LRFD 9th Edition 2024, SOLAS 2025, DNV EMP-2 - BFRP/Elium thermoplastic recyclable composite throughout

Final Document — Citations Compendium

See CSMFAB Materials Study Parts I-VI for complete material citation database.
