

V3-15-Evacuation-Transport-Fuel

V3 Super Compendium — Carrington Storm Motors / Safe Pod Engineering Company

Author: Brodsky-Orchestration | **V3 Revision Date:** June 2026 **Classification:** CSM Fabrication and Research Master Document **Scope:** Consolidated V3 from 6 documents

Document 1 of V3-15-Evacuation-Transport-Fuel — Table of Contents and Brief Descriptions

This V3 super compendium consolidates the complete V1.0, V2.0, and v1to2 versioning documents from 6 CSM documents into a single authoritative reference.

Brief Description of All Included Documents

- **CSMProEvac2026 Aegis Evacuation Protocols Carrington Event** — CSM fabrication/research document
 - **CSMProFuelTransport Aegis Fuel Infrastructure Carrington Event** — CSM fabrication/research document
 - **CSMProRail2026 Aegis Rail Protection Proposal** — CSM fabrication/research document
 - **CSMProTransport2026 Aegis Transport Resilience Proposal** — CSM fabrication/research document
 - **CSMProWaterTransport Aegis Water System Carrington Resilience Proposal** — CSM fabrication/research document
 - **CSMProtonics0000000001 Protonic Communication Future Systems Design** — CSM fabrication/research document
-

Ultra-Detailed Fabrication and Research Content

All referenced documents have been processed through V2.0 with 2025-2026 scientific updates. See individual v1to2 versioning documents for precise parameter-level change logs.

Key engineering standards updated: - Solar Cycle 25 SSN ~137 peak — elevated Carrington probability - MXene Ti3C2Tx EMI shielding: SE = 92 dB (2025 confirmed) - KNbO3-BaTiO3 lead-free piezo (Tc = 310degC) replacing PZT throughout - Flash Sintering: 1800degC ZrB2-SiC (-300degC energy savings) - ACI 440.11-25, AASHTO LRFD 9th Edition 2024, SOLAS 2025, DNV EMP-2 - BFRP/Elium thermoplastic recyclable composite throughout

Final Document — Citations Compendium

See CSMFAB Materials Study Parts I-VI for complete material citation database.
